CLASS HISTORY

IN September of the memorable year of 1929 there arrived at Morrison a class composed of the "greenest rats" who have ever crossed the threshold of Morrison High School. Who could this class be but the present Senior Class, with a few alterations.

With the beginning of that session we began the struggle of four long, weary years, though happy ones, to the goal of victory. For the first few days our voices stuck in our throats and our limbs relaxed with fear when any Sophomores appeared at recess. Finally, at the suggestion of our teacher, we decided to organize as a class and elect officers. The officers we elected were: President, Clyde Baker; Vice-President, Betty Barr; Secretary and Treasurer, Dorothy McComb.

At last came June, and with it the realization that we were Sophomores. We could scarcely wait for summer to pass, so that we could terrify the incoming "rats."

Again we organized and chose as officers Marion Douglas, President; Margaret Childrey, Vice-President; Deloris Downey, Secretary, and Gertrude Peters, Treasurer. That year for Field Day we combined with the Freshman Class and won a majority of the events.

Then came another June, when we awoke to find ourselves Juniors, with but one more session to go before we would be Seniors.

With the coming of September we again started back to Morrison. As officers for that year we elected Margaret Childrey, President; Frank Lambert, Vice-President; Henry Farmer, Secretary, and Dorothy McComb and Bradley Ellis, Treasurers. That year we got our rings, which made us realize as never before our nearness to the finish. Again we combined with the Freshman Class for Field Day, and again we were victorious.

Another June rolled around and we found ourselves—dignified Seniors. As officers for this year we have elected Bradley Ellis, President; Frank Lambert, Vice-President; Henry Farmer, Secretary, and Margaret Childrey, Treasurer.

With the coming of June we will go forth into the world after having completed one phase of our life. May the experiences we have had, the knowledge we have acquired, and the friends we have met at dear old Morrison help us in whatever career we choose.

PAUL WORNOM, '33.

CLASS PROPHECY

WHILE going through my desk a few days ago, I found a letter for which I had been searching for months.

While I was in France collecting material for a novel on French life, Dorothy Gayle wrote me a long letter after she had returned from her vacation at home. At that time, Dot was secretary to Representative Donald Girton. From this letter I learned of the work and whereabouts of every member of the famous class of '33. In fact, it reads like a page from "Who's Who?"

It ran as follows:

"Dear Sarah:

You can't imagine how I enjoyed my vacation; every day, every hour, every minute was full of excitement. Of all the days, the one I enjoyed the most was the day I visited our Alma Mater.

The school is in very good condition. Guess why? Jimmy Blair is principal. He follows the plans set forth by our former Principal, Mr. Mort

Sadie Yost is teaching history, Lucille Wornom and Elizabeth Barnard are also members of the faculty at Morrison.

By the way, would you like to know what all the members of our class are doing? I shouldn't ask you that; I know you are always interested in the affairs of our famous classmates.

Ressie Merica works at the post-office at Morrison, which has grown immensely since we were there.

Russell Dolan and William Gardner are owners of a large garage nearby.

As usual, the girls' basketball team is very good—no wonder—Katharine Coleman is the athletic director.

Nelson King is in the real estate business in Newport News. When I was at Morrison, he had just sent in an ad. for the annual.

John Lankes is a famous architect. At the present time he is designing an office building. He is assisted by Elizabeth Jones, also an architect. When the building is completed, Russell Weade expects to establish his law office there. By the way, Russell is a prominent lawyer.

Bradley Ellis represented the United States in the 1940 Olympic games, which were held in Finland. He broke the world record for long-distance running.

Imagine! Whenever my eyes bother me, whom do you think I pay a visit to? Dr. Fleet Gregg—a famous eye specialist.

Moss Callis is traveling the country with his jazz orchestra, and often gives concerts in the Fox Theater in Washington, D. C.

Milton Redman is a professor of law at the University of Virginia.

A few days ago I bought a new evening gown. It is of the latest fashion, known as the "Wornom Design." You know Paul has become a famous designer, with his office in Paris.

Anne Thompson is a very famous concert singer. When I was in Newport News I went to hear her.

Colleen Poindexter is the music directar at Morrison. I also saw her when I visited the school. Such song birds!

I accidentally saw Frank Lambert. He was visiting his former home. The reason I say former home—he is now a manager of the largest department store in Raymond, Maine.

Dr. Robert Snow, known to us as Bobby, or Snow Bird, is at John Hapkins Hospital.

Guess where I go when I want the latest styles? Of course, to "Mills." Their store is located in Washington, D. C.

Lately I came across an advertisement of Macy's Department Store, in New York. There were several dresses which struck me in particular. A few days later, when I went there to purchase one, I was surprised to find Mary Harlow and Matilda Fenimore employed as models.

John Shenk is teaching history at William and Mary. I recently read an article he wrote entitled "The Importance of Educating the American People."

Henry Farmer is still employed by the New York World as a reporter.

I saw a good movie a few days ago, "O Kie Do Kie." Marian Stinemeyer, Madeline Woltz and Margaret Childrey took the part of the college girls Kee, Dee, and Tee. I suppose some of "Stiney," "Maddy," and Margaret's pictures are being shown abroad by this time.

I saw in the paper where Joe Snyder had returned to Panama to continue teaching chemistry after being home on a visit.

Probably the most noted member of the Class of '33 is Dr. John Cochran, the psychiatrist of international fame, who is now lecturing at the University of Heidelberg.

I often visit the Modern Beauty Parlow, in Washington, D. C., to see my old friend, Alice Gardner. She owns and operates it.

Miriam Thompson leaves today for Paris, where she will continue her studies in art.

I spent a few days of my vacatian at "Stinemeyer Park." The owner of the estate is Harry Stinemeyer, whase sole hobby is training and entering Kentucky thoroughbreds in the races.

I suppase it is needless to say that Iva Lee Thomasson and Jane Joyce are contented with the Wright men.

Donald Girton is patiently waiting for Congress to convene, so he may submit his bill, the purpose of which is to prevent recurrence of depression.

I am sorry to hear that you must stay in France longer than you expected in order to finish your work.

I must hurry back to work, as the private secretary of a representative of Congress does not have many spare moments.

Lots of love,

'Dot.'"

"Sarah Morse, '33."
